GitHub: https://github.com/Perfectionist0001 Mobile: +91-9026158720

Skills

- **Languages**: C++, Java, JavaScript, C, Python, SQL, Bash
- **Frameworks & Libraries**: React, Tailwind CSS
- **Cloud & DevOps Platforms**: AWS, Microsoft Azure, Google Cloud, Docker, Kubernetes, Jenkins, CI / CD Pipeline
- **Tools & Technologies**: Git and GitHub, VS Code, Postman, Vim, MySQL, Figma (Basics)
- **Soft Skills**: Problem-Solving, Adaptability, Time Management, Leadership

Projects

AI Image Processing Web Application | Git Feb. 2025 – March. 2025
- Designed a scalable, secure, and cost-effective AWS cloud architecture to host a web application efficiently.
- Implemented AWS services like EC2, S3, RDS, VPC, IAM, Load Balancer, and Auto Scaling to build a complete solution.
- Delivered a highly available, performance-optimized, and reliable cloud environment capable of handling variable traffic.
- **Tech Stack:** AWS (EC2, S3, IAM, VPC, RDS, ELB, Auto Scaling, CloudWatch).

CPU Scheduling Algorithm Visualizer | Git Apr. 2025 – May. 2025
- Analyzed and compared various CPU scheduling algorithms with a focus on improving efficiency and reducing processing time.
- Developed a structured repository containing research notes, algorithm explanations, and documentation that evaluates multiple CPU scheduling techniques.
- Provided a clear study resource that helps understand scheduling behavior, performance impact, and practical use cases in operating systems.
- **Tech Stack:** HTML, CSS, JavaScript, C, C++, Markdown (Documentation), Git & GitHub.

Home Inventory Tracker Chatbot | Git Apr. 2025 – May. 2025
- Built a chatbot-enabled home inventory tracker aiming to streamline item management and asset visibility using a
- conversational interface.
- Developed a web-based inventory system where users interact via a chatbot to add, remove, and check household items
- backed by a database and responsive UI.
- Delivered a practical tool for homeowners to efficiently maintain their inventory, improving organization and asset tracking.
- **Tech Stack:** Python, Flask, JavaScript (chatbot UI), HTML & CSS, MySQL, Git & GitHub.

Summer Training

C++ Programming: OOPs and DSA - CSE Pathshala | Certificate Jun. 2025 – Jul. 2025
- Developed C++ applications using Object-Oriented Programming (OOP) concepts and core Data Structures including Arrays, Linked Lists, Stacks, Queues, Trees, and Graphs.
- Implemented and optimized algorithms focusing on time complexity, space complexity, and edge-case validation.
- **Solved 150+** data structures and algorithms problems to strengthen problem-solving, debugging, and STL proficiency.

Certificates

- Privacy and Security | NPTEL | **Certificate** Nov. 2025
- AWS STD Workshop | AWS Cloud LPU | **Certificate** Nov. 2025
- Master Generative AI & Generative AI tools | Udemy | **Certificate** Aug. 2025
- AWS Fundamentals | AWS Cloud LPU | **Certificate** Apr. 2025
- Introduction to Hardware and Operating Systems | IBM | **Certificate** Oct. 2024

Co-curricular Activities

Sports Secretary at LPU BH Aug. 2023 - Present
- Currently serving as Sports Secretary at LPU Hostel, coordinating sports activities and encouraging active participation among students.

Event Coordinator at Coding Ninjas Nov. 2023 – Dec. 2024
- Served as an Event Coordinator at Coding Ninjas for over a year, leading the planning and execution of multiple technical events.

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.39** Aug. 2023 – Present
- **Sunbeam School** Robertsganj, U.P
  Intermediate (PCM); **Percentage: 70.66%** Apr. 2021 – March. 2023
- **Sunbeam School** Robertsganj, U.P
  Matriculation; **Percentage: 83.33%** Apr. 2020 – March. 2021
